

Attachment 1

The application is entitled to receive streamlined treatment under the Commission's rules because:

(1) The Applicant is a foreign carrier in Jordan, but it qualifies for a presumption of non-dominance under § 63.10(a)(3). Specifically, the Applicant only began operations as a Jordanian carrier in 2008, and it does not even have a one percent share of the international transport or local access markets in Jordan. In addition, Jordan is a WTO Member country and the Applicant also qualifies for a presumption of non-dominance under § 63.10(a)(4) because of the lack of market power demonstrated by its miniscule market share. The Applicant is affiliated with Kulacom Bahrain, which is a licensed carrier in Bahrain, through joint ownership by Gleana Telecommunications Investment Inc. ("GTII"). GTII owns 80% of the Applicant and is also the majority owner of Kulacom Broadband Investment Company ("KBIC"), which owns 100% of Kulacom Bahrain. Kulacom Bahrain has yet to begin operations as a carrier in Bahrain. It expects to do so in 2009. Bahrain is a WTO Member country and the Applicant also qualifies for a presumption of non-dominance under § 63.10(a)(4) because of the lack of market power demonstrated by its miniscule market share.

(2) The applicant has no affiliation with a dominant U.S. carrier whose international switched or private line services the applicant seeks authority to resell (either directly or indirectly through the resale of another reseller's services).
